French, 26 years old

Java / JavaEE Developer

Profile

Over three years experience in designing and developing client and server-side applications.

Excellent analytical, design and problem-solving abilities.

Highly motivated and committed to delivering the highest standard of work.

Technical skills

Languages:	Java, C/C++, C#
Frameworks:	Java EE (Servlets, JSP), Hibernate, Spring (aop – mvc – dao – orm – security)
Scripting languages:	Javascript (Prototype / jQuery), Groovy, Shell, Perl, PHP, VBA
Web:	HTML, XML, CSS (Blueprint, Less), JSTL
Methodologies:	OOAD, UML, Design Patterns, Relational Database Design
Java Tools/APIs:	Ant, Maven, Velocity, Quartz, SLF4J, Swing, JUnit, Sitemesh
Quality / CI:	Findbugs, PMD, Checkstyle, Sonar, Hudson/Jenkins
Other:	PostgreSQL, MySQL, SVN, Git, HTTPd, Tomcat, JBoss, Eclipse, Emacs, SDL, Qt
OS:	Windows, GNU/Linux, Mac OS X

Professional experience

Software engineer (Java / Java EE), AsiaInspection (Shenzhen, China)

September 2009 – present (2+ years)

- Taking over unfinished projects from subcontractors, making them stable and functional, boosting them respecting deadlines.
- Main developer of two successfully launched services (AsiaCalculator.com – Asialnquiry.com) to simplify costs calculation and products imports from Asia to Western countries.
- Improving current processes by implementing and maintaining test and production environments (RedHat), internal revision control system (SVN over SSH) and dependencies repository (Maven Nexus).
- Participating in the conception and implementation of the company's new technical project (based on Logback, Maven, Spring, Hibernate and Axis), to provide web-services for the current business application (in Lotus Script / Java).
- Helping junior developers (Asian and Westerners) under my responsibility, and bringing fresh ideas to other project leaders.

Software analyst (Java / Java EE), Sopra Group (Montreuil, France)

March 2009 – August 2009 (6 months)

In charge of studying and implementing security and identity management softwares:

- Single Sign On and Federated Identity software analysis.
- Finding and fixing security flaws on French government websites powered by Lutece Portal Engine.

Software engineer (C / C++), Mindscape (Rueil-Malmaison, France)

September 2008 – February 2009 (6 months)

Nintendo DS software/tool development (C / C++ / Perl):

- 2 commercial products launched in Europe with tight milestones and deadlines.
- Closely working with internal & external development and QA teams.
- Improving development tool chain.

Education and diplomas

2006 – 2009 **Master's Degree** in Computer Science (with honors. GPA 3.52)
EPITECH - European Institute of Technology (Paris, France)

2004 – 2006 **Bachelor's Degree** in Computer Science
CNAM - Conservatoire National des Arts et Métiers (Paris, France)

Hobbies, interests and values

Communication: English (fluent) – French (native speaker) – Chinese (basic knowledge).

Programming: Developing cross-platform and free softwares for PC and handheld devices in my spare time.

Learning/Travels: One year study in Dalian Polytechnic University (China).

Helping/Sharing: Active contributor to open source projects, such as Prestashop (eCommerce shopping cart software).
